Fresh Hub

Welcome to **Fresh Hub**, an e-commerce company based in Malaysia that seeks to improve food security in developing countries. With a mission to achieve sustainability, affordability and accessibility of nutritious foods across the world.

With our debut in 2022, we plans to connect local farmers with global customers using our minimal and interactive web application – Fresh Hub.

By forging the prevalence of e-commerce with fresh produce, we will not only be able to provide hunger alleviating solution, but also drive economic transformation through the creation new job opportunities for people in need.

Meet The Team

"Hai, I'm Dalton, the main UI/UX designer of Fresh Hub. The webpage is designed to be simple to navigate, with a minimal logo, modern fonts, and themed color palettes. Dozens of CSS files have been used to merge everything together to create this beautiful website~ I hope you enjoy navigating the interface as much as I enjoyed creating them for you!"

Gan Ming Liang

Front-End Developer

"I am delighted to be a part of the challenging retail industry in Malaysia, and as part of the team's effort to adapt to the expansion of technology in everyday and business life. FreshHub is here to better serve our customers!"

Bryan Wong Win Kit

Full-Stack Developer

"It feels great to be a part of this project and working with my colleagues towards our goal of aiding food availability to areas of scarcity. It has been a joy developing this, hopefully the final product looks as Fresh *heh* to you, as it is for us."

Ian Joseph Lai Zi Jin

Back-End Developer
